

Haigh Commercial Waste Disposal Units

Project
Waste Water

The most economical and hygienic system for disposing of kitchen food waste

Whether you run a Hotel or guest house, nursing or retirement home, restaurant, pub, cafe or canteen, there is a Haigh commercial disposer available to suit your needs.

A Haigh commercial disposer will dispose all all your biodegradable food waste cleanly and hygienically, thus dramatically reducing the amount of waste that goes into your refuse bins. Your food waste is simply ground to a pulp and washed away.

DISPOSAMATIC 50

The entry level model of the commercial range of Food Waste Disposers fits into your existing sink and is ideal for the small bistro, cafe or hotel, Suitable for up to 50 meals per sitting and having a ½ Hp electric motor it is designed to run continuously for up to half an hour at a time. The machine comes complete with control gear, spatula and release key. The drain connection is 40 mm .

DISPOSAMATIC 75 - 01

This model like the Disposamatic 50 is an under sink fitting Food Waste Disposer, however this has a more power 0.55 kw motor and is built of a more robust construction. The motor is fan cooled for long life and has a larger 50mm drain outlet. The control gear has a reversing facility which considerably increases the life of the cutters.

DISPOSAMATIC 75 – 62 Free Standing

This is identical to the Disposamatic 75-1 except it comes complete with its own round bowl stainless steel sink and stand. This allows your main sink area to be kept clear for washing and food preparation. Water is supplied through an integral swan neck tap.
